Making your foldable

Print onto A4 Or A3 paper or card. Fold the sides inwards and cut the dotty line. Turn over and you have a foldable where flap can be opened. The child can write on the space underneath and also on the back of the picture.
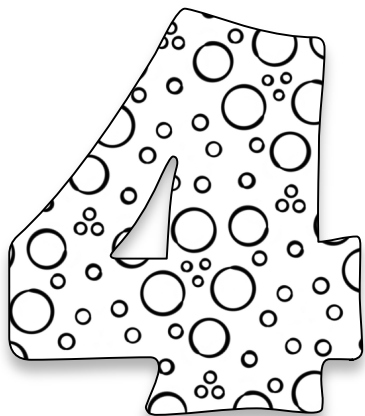

Something I want to stop doing

Four ways to help others

This is the back of the foldable
- When made up the child can colour the image and lift the flap to do their writing.

✂ Cut along the dotty lines

Ways to show kindness
