

### Friendship bracelet

Use for – friendship

### Resources

Glittery pipe cleaner

Felt pens and glue

Coloured card

White paper or card

You could use yarn for the bracelet and actually make a tiny friendship bracelet to stick on. You could use card and stick glitter or sequins on.

### Instructions

Ask the child to think of their 4 best friends. What do they like about them? See if they can come up with positive characteristics such as helpful, caring, good listener, good fun, kind, trustworthy etc.

Ask the child to draw around their hand and part of their arm. On each finger they must write one of the qualities of being a good friend. They can then cut out little hearts and write a friend's name on each one.

It could be done the other way round. Write the friends on the fingers and characteristics on each heart charm

If they want to decorate their hand they can do. Perhaps using some skin coloured crayons to lightly shade the hand
